

Unit :4

Manto aur Bara Dost

Manto came home excited and told his mother, "Mama today I made a new friend in the play ground." His mother asked, "How old is he?" He said, "I think he is four years older than me because he is four classes ahead of me."

His mother said, "It's better to be friends with someone your own age. Older children can bully young kids. Mohsin is your good friend. He is your age and your class fellow. It's better to play with him"
